

Protecting YOUR Healthcare Freedoms in NC!

Citizens for Healthcare Freedom (CHF)

is a non-profit, North Carolina grassroots organization dedicated to educating the public about health care issues and **supporting your choice and access to complementary and alternative healthcare products and services**. Our mission is to improve the health and well-being of our North Carolina community by empowering individuals and families to make freer and more fully informed health care decisions.

Support NC House Bill 842!

CHF is supporting an exciting, **new Health Freedom Act in North Carolina**. We continue to promote a health freedom movement in North Carolina. The General Assembly is now considering our proposed health freedom bill, which is similar to legislation passed in other "health freedom states."

By signing our Petition*

Together, we are working hard to spread the word and get this health freedom proposal to become law.
